

VIN Charles

Master's final year internship

Biodiversification inference with graph neural networks

Education

- 22-24 • **Master's Degree in Computer Science - Specialisation Data, Machine Learning, and Knowledge (DAC)**
Sorbonne University - Paris
- 19-22 • **Bachelor's degree with highest honour, Mathematics and Computer Science applied to Cognitive Science**
University of Lille

Experiences

- 23-S2 • **Research project - Explainable insects classification - ISIR - Paris**
 - Development of a convolutional neural network for insect classification.
 - Use of gradient-based approaches and the LIME and SHAP frameworks.
 - Takeover, adaptation and documentation of the project.
 - Experiences monitoring and evaluation of different models with WandB.

[Pytorch](#) [CNN](#) [LIME](#) [SHAP](#) [WandB](#)
- 23-S2 • **Project - Neural Network DIY**
 - Development of a [neural network](#) library entirely in Numpy.
 - Implementation of essential modules (linear layers, 1D convolutions, etc.) for creating, training and evaluating neural networks.
 - Performance optimization through advanced use of Numpy for efficient computation.

[Python](#) [Numpy](#)
- 22 Summer • **Internship – Filboost & SCALab Laboratory - Lille**
 - Processed raw EMG/ECG signals and experimental task data.
 - Employed data visualization techniques.
 - Utilized statistical tests to uncover experimental group differences.
 - Delivered presentations and reports to communicate findings effectively.

[Pandas](#) [Seaborn](#) [Signal processing](#) [Statistical tests](#)

Skills

Computer Science:

- (Arch) Linux
- Organization: Notion
- Web front-end (React, Svelte)
- Office, Photoshop, Premiere/After Effect
- LaTeX

Data Science:

- ML: SVM, Neural Networks, Gaussian process, Unsupervised method, Bayesian network, Decision tree
- Image: Image Classification, Vision [Transformers](#), GANs, Segmentation & Detection, Diffusion models

Miscellaneous

- DIY Project: portable smart TV, smart plant, portable secondary monitor, 3D-Print, ...
- Plants, gardening et independent living.
- Volunteer work: Electronic music festivals and Parties.
- Sport: running, climbing, bivouac.
- Cooking: meal prepping & home cooking.
- Seasonal jobs
- References on request
- English C1 : 2022 - TOEIC - 955/990
